Professional Summary

Frontend Engineer with 3+ years of experience building enterprise-grade booking, payment, healthcare, and travel platforms using React.js, Next.js, TypeScript, and JavaScript. Experienced in developing responsive interfaces, reusable component systems, and high-performance web applications with a strong focus on scalability, performance, and user experience.

Core Competencies

- **Frontend Engineering:** React.js, Next.js, React Native, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind, MUI, SCSS, Responsive Design
- **Frontend Architecture:** Redux, Context API, Zustand, TanStack Query, Axios, Micro-Frontend, Lazy Loading, Code Splitting, Performance Optimization, Jest, React Testing Library
- **Backend Integration:** Node.js, Express.js, Nest.js, REST APIs, GraphQL, PostgreSQL, Prisma, Sequelize

Professional Experience

Oct 2025 – Present **Full Stack Developer**, Antino Labs

- Developed enterprise-scale React.js and Next.js applications supporting **100K+ monthly booking transactions**
- Built **reusable UI components, dashboards, and dynamic forms** used across multiple business workflows
- Improved application performance through **lazy loading, code splitting, and real-time Socket.IO integrations**

Oct 2024 – Aug 2025 **Full Stack Developer**, Silversky Technology

- Delivered **10+ production-grade web and mobile applications** using **React.js, React Native, and Next.js**
- Built and maintained **5 Keys Communication** 🔑, improving payment reliability and reducing crashes by **40%**

Feb 2024 – Aug 2024 **Full Stack Developer**, Six Sigma Solutions

- Built a scalable **CRM system (React + Node/Express)** improving data management efficiency by **30%**.
- Optimized **healthcare platforms**, reducing patient processing time by **25%** and enhancing reporting performance.

Key Projects

- **Airport Services Platform (Adani Group) (React.js, Next.js, TypeScript, Socket.IO, Node.js)**
 - Built **enterprise-scale booking and fulfillment workflows** for Lounge Access, Meet & Greet, Porter, and Wheelchair services
 - Developed **responsive customer and operational dashboards** with real-time updates using **Socket.IO**
 - Integrated **payment, entitlement validation, and booking orchestration systems** to streamline airport service operations
- **Tripare AI** 🔑 (React.js, Next.js, Node.js, Redis, AWS)
 - Developed **flight and hotel booking workflows**, increasing booking efficiency by **30%**
 - Built **payment, refund, and billing systems** with Zoho Invoice integration, reducing manual effort by **40%**
 - Developed **role-based and multi-tenant dashboards** and optimized search performance using **Redis**, reducing query latency by **35%**
- **CRM Platform (Next.js, React.js, Zustand, Nest.js, PostgreSQL)**
 - Built a **modern CRM system** with reusable components and advanced form workflows
 - Developed **real-time notifications, Google Meet integration, and customer management dashboards**
 - Improved operational efficiency through **automated lead-to-client workflows** and centralized data management

Education

B.E. Information Technology, Sal College of Engineering — CGPA: 7.2/10 (2023)

Achievements

- Improved **booking efficiency and cost savings** by implementing a **smart fare comparison module** in Tripare
- Reduced **system failures in payment workflows** by implementing **idempotent and fault-tolerant processing**
